

E-Waste Recycling & Computer Refurbishing

The California Prison Industry Authority (CALPIA) E-Waste Program picks up and recycles e-Waste from your office at no cost to you or your business.

The program enables offenders to gain valuable skills within the recycling and computer refurbishing industries.

The e-Waste items are sorted and the usable computers are refurbished for use in California Department of Corrections and Rehabilitation offender programs, schools, and community based organizations.

CALPIA's E-Waste Program benefits both the state and community. Offenders who participate in CALPIA's programs have a 26-30 percent lower recidivism rate than offenders who have not gone through CALPIA work and training programs.
